About Paul Kadjo

I'm a contemporary visual artist, emerging designer and founder of the corporate brand of the same name.

Born to a German mother and an Ivorian father in Germany and raised in Ivory Coast, I find myself in a gap between acceptance and discrepancy. A biting reality in the eternal search for the "true" origin. It seems illogical to me. Because my origin is the world. Why do I have to be reduced to my outside when the "true origin" is hidden inside? A universal home that constantly adapts and lives in change. Like the world we live in.

I see myself as a citizen of the world and unite this unique symbiosis in me. My vision is to create a holistic lifestyle in constant connection with nature - a modern form of unity and luxury.
